

[PDF Watermark Remover V1.0.2.27](#)

The screenshot shows the "Settings" window of the PDF Watermark Remover V1.0.2.27. The window is divided into two main sections: "Locate Text" on the left and "Replace with New Text/Images" on the right.

**Locate Text Section:** This section contains search controls (magnifying glass icons, a page number "1 / 9", and a "Save" button). Below these is a large text area displaying a document page. A red oval highlights a small rectangular box in the blank space above the text, with a tooltip that says "Add it to the table".

**Replace with New Text/Images Section:** This section has two radio buttons: "Replace with text" (selected) and "Replace with Images".

**Replace with text Table:**

	Position	Find What	Replace with	
1	P1 (523 169 109 ...	VeryPDF	VeryDOC	1
2	P1 (48 21 396 52)		Place my Logo Here	1

**Replace with Images Table:**

	Position	Find What	Replace with	Width	Height
1	P1 (523 169 109 ...	VeryPDF	Open Picture File	109	31
2	P1 (326 78 140 33)		Open Picture File	140	33
3	P1 (48 21 396 52)		Open Picture File	396	52

A red callout box with a white background and red border points to the "Add it to the table" tooltip. The text inside the callout box reads: "You can drag and drop a rectangle at blank area, then you can place a text or image into this rectangle easily."
